RAPIDO Foldable electronic wheelchair

The Rapido combines comfort and technology. .
 The Rapido can be best presented as an all-in-one. Comfort, technology and appearance go hand in hand. It is proven here once again that a marvellous piece of technology does not have to be a mastodon. Its 38kg makes the Rapido highly manageable. The anatomical seat and back provide optimum support for the body and guarantee very high seating comfort for you. In addition, the armrests can be adjusted in both height and width or completely removed.

TRACER –outdoor electrical wheelchair

Every comfort The shaped seat and back provide optimum support for the body and guarantee very high seating comfort. In standard, the armrests can be adjusted in both height and width. The control unit can also be easily folded away. This allows you to move closer to the table.

Powerful and high endurance The control unit with microprocessor gives an extra dimension to using an electronic wheelchair: it is easy to control, with a minimum of effort and maximum safety. There is however more. The controls can also be personalised. To suit you! Speed, acceleration and the sensitivity of the control lever: parameters which can be individually programmed to suit your comfort.

The rear wheels are fitted with special springs which substantially increase the comfort when moving in a wheelchair-unfriendly environment. Your safety has also been taken into consideration. The Tracer is equipped with lights and indicators. This means that you can leave home at any time of the day.
